Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Upon consideration of applicant's arguments and amendment to the claims dated 10/20/03, the examiner withdraws the 102 (b) rejection of claim 1 and the USC 112, second paragraph rejection of claims 2-6. The examiner specially agrees with applicant's argument that the prior art made of record does not disclose a PWM motor driving device comprising a saturation-preventing device for responding to a voltage from a motor phase that is driven by a plurality of transistors and avoiding saturation of the output transistors. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
